PROFESSIONAL SUMMARY

Clinical Research Professional with 1.5 years of experience in Clinical Data Management, supporting end-to-end clinical trial data workflows across NHS UK and academic research environments. Strong expertise in data cleaning, validation, query resolution, and CRF review using REDCap, Medidata Rave EDC, Veeva EDC, and EPR systems. Experienced in ensuring data quality, audit readiness, and regulatory compliance (ICH-GCP, GDPR). Exposure to clinical database testing, edit checks, and protocol-driven data validation. Proven ability to manage multiple stakeholders and deliver high-quality, reliable datasets to support clinical trial outcomes. Seeking a Clinical Data Services role to contribute to data integrity and efficient trial execution.

PROFESSIONAL EXPERIENCE

RESEARCH ASSISTANT

May 2024 - October 2025

Royal Berkshire NHS Foundation Trust | Reading, UK

- Managed clinical data workflows across Renal, Rheumatology, Elderly Care, Sexual Health, and Gastroenterology, supporting 15+ studies from start-up to close-out.
- Performed CRF support, data entry, edit checks, and query management using REDCap, Medidata Rave EDC, and Veeva EDC, ensuring >98% data accuracy.
- Conducted data cleaning, validation, and reconciliation on 10,000+ records, ensuring audit-ready databases with zero major findings.
- Supported UAT, protocol-based validation, and discrepancy resolution aligned with CDM standards.
- Used R and SQL for data analysis and preparation of analysis-ready datasets; collaborated with cross-functional teams in compliance with ICH-GCP and GDPR.

DENTAL INTERN

Oct 2018 - August 2020

Saveetha Dental College | Chennai, India

- Performed 1,900+ dental procedures across 500+ patients, integrating clinical care with structured research data collection and protocol-based assessments.
- Published 10 peer-reviewed research papers and delivered 15+ national and international conference presentations.
- Organised and delivered 20+ public health dental camps, serving 1,000+ underserved patients and contributing to preventive oral health awareness initiatives.

EDUCATION

Master of Public Health (Data Science Specialisation) – Distinction

University of Glasgow, UK

2022–2023

Bachelor of Dental Surgery (BDS)

Saveetha Dental College, Chennai, India

2014–2020

SKILLS

- Clinical Data & Research Tools:** R, Python, SQL, Power BI, Electronic Patient Records (EPR) Management, Microsoft Office (Advanced), Data Cleaning, Data Validation, Dataset Preparation.
- Data Analysis & Modelling:** Statistical Analysis, Predictive Modelling, Data & Visualisation, Dashboard Reporting
- Compliance:** ICH-GCP, GDPR Compliance, Data Governance, Audit-Ready Documentation, Clinical Trial Data Handling
- Clinical & Stakeholder Operations:** Patient Interaction, Cross-Functional Collaboration, Study Coordination Support.
- Stakeholder Engagement:** Pharmaceutical companies (IQVIA, ICON, GSK, Alfasigma), UK Health Security Agency, NHS

CERTIFICATIONS

- Registered Clinical Research Practitioner, Academy for Healthcare Science (AHCS), UK | 2024
- Good Clinical Practice (ICH-GCP), NIHR | 2024
- GDPR & Information Governance, NHS | 2024
